

Subprocessors and Other Data Recipients

Updated 7 October 2026

This document identifies third parties that may receive personal data through Purple Slot. A provider is a **Subprocessor** only where it processes Studio personal data on Purple Slot's behalf. Payment providers and Studio-selected integrations generally process data under their own terms and for their own purposes.

Subprocessors

Provider	Service	Region
Cloudflare, Inc.	Application delivery, edge networking, security and Cloudflare Workers	Global network
Scaleway SAS	Transactional email delivery	European Union
Zoho Corporation B.V.	Purple Slot email hosting and mailboxes	European Union; limited support access may occur from outside the EEA
Hetzner Online GmbH	Hosting and cloud infrastructure	Falkenstein, Germany
PostHog, Inc.	Product analytics	Frankfurt, Germany
Honeycomb.io, Inc.	Application monitoring, logs and traces	Ireland

Payment providers

Studios choose and contract with their payment providers. These providers do not process personal data on Purple Slot's behalf and are not Purple Slot Subprocessors. They generally act as independent Controllers for regulated payment services, identity checks, fraud prevention and legal compliance. Stripe may also act directly as a Processor on the Studio's behalf for certain activities.

Provider	Role
Stripe Payments Europe, Limited	Processor directly on the Studio's behalf for certain payment-facilitation activities, and Controller for regulated, identity, risk, fraud-prevention and compliance activities
PayPal (Europe) S.à r.l. et Cie, S.C.A.	Independent Controller for payment services
GoCardless Ltd and GoCardless SAS	Independent Controllers for bank-debit and related payment services

Studio-selected integrations

At a Studio's request, Purple Slot may exchange booking, membership, check-in and attendance information with:

- Urban Sports GmbH (Urban Sports Club);
- Gympass US, LLC (Wellhub); and
- EGYM Wellpass GmbH.

These services receive data under their own agreements with the Studio or member and are not Purple Slot Subprocessors unless the applicable agreement expressly provides otherwise.

Questions may be sent to hello@purpleslot.io.
